The Art of Innovation by Tom Kelley - at no cost to you

Why is AudioTech giving you this innovation classic at no cost? Because it's the best way to demonstrate why you need to invest in the complete **Innovator's Library**.

The editors of AudioTech Business Book Summaries understand that innovation is the key to success in our fast-paced 21st century economy. That's why they put together the online **Innovator's Library: 65 landmark innovation titles** summarized in audio iTunes/MP3 formats (printable PDF format, where applicable). They're written and approved by the most outstanding minds in the world of innovation. Every title was carefully chosen because it provides unique golden nuggets of wisdom that will enable you to:

- See new ideas
- Elicit cutting-edge insights from others
- Identify and commercialize the genuine winners

So, rather than selling you on the Innovator's Library, we simply want you to experience the benefits for yourself. In a world where innovation is the *only* sustainable competitive advantage, you can never know too much about it.

Technology transfer services / All reasonable models of co-operation will be considered

You are an inventor, do you have technology to transfer, do you have new products, technology based on innovations to offer; do you need news technologies, do you need technical assistance in technology transfer...

Please contact IPA CIFATT Craiova, e_mail: office@ipacv.ro; web site: www.ipacv.ro.

SMEs

Business Offers

[ES150205-04-20110627020](#)

Catalan Company (Spain) leader in the design and production of professional forest fire gear is looking for trade intermediaries in all European market.

[PL150323-06-20110627023](#)

A Polish company, operating in the motor sector, is offering sheet metal and varnish repairs, it performs technical overhauls, offers servicing and repairing services. It is also looking for distributors of spare parts for cars and it is offering trade intermediary services.

[TR150290-02-20110626002](#)

A Turkish company specialized in manufacture of baby products is looking for distributors in European countries.

[FR150286-01-20110624024](#)

French geothermal heat pump manufacturer seeks installers with good technical skills to distribute their products abroad. Trade intermediary services are required.

[IT150260-02-20110623016](#)

Italian company producing appetizers made of vegetables, tuna and porcini mushrooms in oil, dried or sauted is looking for companies interested in distributing its products.

[DE150280-01-20110623023](#)

A German company focusing on molecular diagnostic tests for the early detection, prognosis, monitoring, personalised medicine in the field of cancer is looking for qualified distributors or commercial agents in order to expand their sales.

Business Request

[SE150101-11-20110630044](#)

A Swedish company that produces and sells soaps, candles, massage oils, products to use in baths and torches is looking for an agent or sales representative (not wholesaler) who can sell the products to stores (experience indicates that gift shops are the most relevant target) in the Netherlands and Norway. The products are 100% natural/hand-made.

[RU000003-03-20110629009](#)

Russian company, specialized in wholesale and retail trade of second-hand clothes, as well as work of stock centres, is looking for subcontracting activity.

[ES150148-04-20110627005](#)

Spanish company specialised in the manufacture of electronic controls for petrol stations, chemical industry and solar systems is looking for trade intermediary services (distributors, representative agents).

[DK150121-09-20110627017](#)

Danish producer of high-pressure/sewer cleaners, slurry tankers, vacuum tankers, tippers and vehicles for transportation of waste containers is looking for a distributor.

[TR150290-02-20110626004](#)

A Turkish company specialized in manufacture of textile products is looking for distributors in European countries.

[IT150260-02-20110623013](#)

Italian wine producer company is looking for distributors and/or importers. It produces high quality wine since 35 years.

Technology Offer

[Universal 3D toy](#)

A Slovak inventor has developed specialized 3D toy - that is suitable for children as a learning tool as well as for professionals and engineers as development modeling tool. The toy is very universal, it has unlimited possibilities of use.

[Material for the abatement of hydrocarbon emissions during the cold start of thermal motors.](#)

A Spanish research institution has patented a material for the abatement of hydrocarbons contained in exhaust gas emitted by a thermal motor. This material is free of noble metals and it can work during the cold start of the motor which makes its efficiency improves compared with conventional catalysts.

[Innovative technology for recycling of polymers, plastics, rubber.](#)

A German SME specialised in recycling technologies has developed an innovative process that allows to reuse industrial waste (plastics, elastomers) as high-value raw material. The company already holds a patent that offers great potential for a successful market introduction and is seeking partners in Europe willing to act as licensees or corporate investors.

[Micro-nutrients fertiliser](#)

The company from south-east Poland is dealing with production of highly ecological fertilisers for agricultural industry. Their latest research result is a fertiliser based on micro-nutrients supplemented with copolymers.

[A brine evaporative cooler/concentrator for autonomous thermal desalination units](#)

An Italian academic group has developed a novel device, named brine evaporative cooler/concentrator (BECC), for coupling with small-scale thermal desalination plants in order to reduce the problem of brine disposal. It is based on the principle of evaporative cooling, where the cooling of a stream due to its evaporation is used for the cooling of a second stream separated from the first by a heat transfer surface.

Technology Request

Ultra Small Electronic-Scanning Ultrasonic Transducer for High Resolution Imaging

A large US company is looking for proposals for creating high density arrays of ultra small electronic-scanning ultrasonic transducers. These transducers will be incorporated onto a cylindrical medical device to enable high resolution imaging.

PS FP7 Antimicrobial drugs to prevent the HIV (Human Immunodeficiency Virus) transmission

An international research consortium, coordinated by a Spanish Institute, is looking for an SME partner to submit a proposal within FP7. The project aims to develop a family of new antimicrobial drugs which have been shown to inhibit HIV transmission based on a new strategy: to block an entry receptor for HIV, the lectin DC-SIGN.

Innovative warehouse racking technologies

A UK company that offers specialist racking services for warehouses is seeking innovative new technologies for its UK client base. The company is particularly interested in new technologies that could identify damaged and overloaded racks thereby alerting the warehouse to take immediate remedial action.

EUREKA ACQUEAU - Development of Commingled Hybrid Yarn Reinforced Polyethylene Composite Pipe

A Turkish research and development performing company, on pipeline technologies, energy production and management, advanced materials, computational modeling and analysis fields in addition to fluid transportation subjects, is preparing a project proposal to EUREKA ACQUEAU 4 call. The project aims to develop commingled hybrid yarn reinforced polyethylene composite pipe.

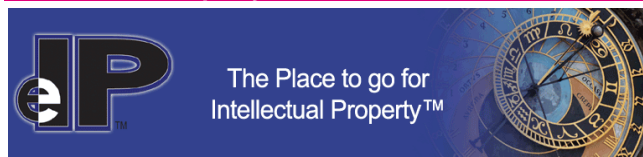

Technology of methane, electric and heat energy production on the basis of dry sawdust and biogas

A Polish producer of laminated wood is looking for a technology of methane, electric and heat energy production on the basis of dry sawdust and biogas (small, mobile biomethane power plant). Technology should use for production process as raw material - sawdust with a natural moisture content of 12-18%.

PS - CIP Eco-innovation – Modern Decentralised Waste Oil Recycling

Within the frame of the CIP Eco-innovation Programme a German company is seeking partners for a project concerning the development and construction of technically simple but robust systems for converting waste oils to base oils by an already tested and patented method. The project calls for partners with a background in the recycling industry, who will be able to contribute to the further development of the method into a marketable plant engineering system.

Research / Innovation and Entrepreneurship

The new Partners Service - CORDIS

CORDIS, the Community Research and Development Information Service, has launched its new Partners Service. This new interactive service is developed to promote expertise, organisations so as to find research & business partners for different funding opportunities, for private research, innovation collaborations.

It supports the creation of various groups and networks. Besides the general facilities, the system offers the identification of National Contact Points so as to enhance their visibility. The button '*Identify me as NCP*' is connected to the CORDIS database, if your first name, last name and country in your account data are identical to the data in our database, you request to be identified (press the button) it identifies you, places the acronym (NCP) after your name.

Every month we will run a check and remove the label in case it is not available in our database any more (since it means that the person is not included in the official database, thus, is not an NCP any more)

The button '*Find my NCP*' is connected to the public CORDIS database on NCPs http://cordis.europa.eu/fp7/ncp_en.html and helps users of the Partners Service to get into contact with their national NCPs.

Research Potential - Info Day and Brokerage Events, Brussels, 22 September 2011

The next ResPotNet Info Day and Brokerage Event will be a great opportunity for stakeholders interested in FP7 Regional Programmes to receive information about the forthcoming calls 2012, meet other relevant stakeholders, Regional National Contact Points. During the event, Dimitri Corpakis (Head of Unit Regional Dimension of Innovation - DG R&I) will present the priorities for regional innovation strategies, an overview of 2012 calls. Profiles of successful organizations funded by RegPot will be disseminated as well.

A networking lunch will conclude the meeting. After the lunch, NCPs will be available to assist and advice participants.

3rd EU science summit SciTech Europe *Advancing Research, Innovation & Collaboration*, 24 Nov 2011, Brussels

Early Bird rates are available until the 29th June 2011. At our conference we will explore how to develop, integrated approach to research and create the right conditions for innovation, invention & industry to flourish. Delegates will gain a strong understanding of EU science policy, have the opportunity to engage with stakeholders, funding agencies & leading academics. This international conference will bring the EU science community together where speakers will discuss:

- Collaborate European research
 - How to achieve better value for money and successful outcomes
 - The development of innovative health solutions and achieving excellence in life sciences
 - Frontier research and the latest technologies
 - How best to take innovative ideas and pioneering solutions into the commercial market
 - Addressing the unprecedented global challenges such as climate change, healthcare, energy and food security.
- This will provide the platform for the opportunity to forge new networks, promote frontier research, debate the key initiatives that can benefit science and society.

Call For Tender / Proposals / Applications / Fundings / Awards

Call for proposals: Supporting public procurement of innovative solutions: networking & financing procurement

Deadline: 27-09-2011. The call aims at supporting public procurers in purchasing new, improved solutions, products, services in areas of grand societal challenges. The objective will be realised through establishing trans-national networks to enable Contracting Authorities, organizations supporting innovation procurement:

- to offset the additional risks and costs,
- to collaborate to create a critical mass,
- to test the feasibility and implementation modalities of a future EU support scheme.

International Social Innovation Competition for Naples 2.0

Naples - a city of past glories, beauty see it's streets left in turmoil by a corrupt, ineffective system, with rubbish left piled high. These on-going challenges provide the perfect test field for social innovation to move beyond being a 'nice label' and to having tangible impacts on the ground and demonstrating that the time for a new approach has arrived. We aim to succeed where all else has failed. For this reason we are running a competition to attract the brightest and most creative minds from around the world which can solve selected challenges in Naples.

SMART 2011-0036 Quantifying public procurement of research and development of ICT solutions in Europe

Deadline: 16/09/2011. This study aims to gather data about the amount of public procurements of research and development that are taking place in the Member States and that are not tendered EU wide. The purpose is to quantify the data in such a way that also allows the identification of R&D procurement expenditure across areas of public sector activity, and across categories of expenditure, in particular for this study focusing on ICT related goods and services procured. This study should be carried out in line with R&D expenditure measurement methodologies already used in official yearly statistics, scoreboards and benchmarking exercises relating to R&D expenditure across EU in comparison with the rest of the world developed by EUROSTAT in cooperation with member states' national statistics offices, OECD and the EC. The study is taking place in the context of the Digital Agenda for EU, wider Innovation Union objectives to enable more informed decision making when it comes to designing policies for encouraging innovation from the public demand side, such as pre-commercial procurement. The study should be carried out in view of developing guidelines for policy makers to set up a systematic way of collecting this type of national data in the future.

More... http://ec.europa.eu/information_society/newsroom/cf/itemdetail.cfm?item_id=7157 ; [Email to receive the documentation](#)

SMART 2011/0035 Simulation, visualisation and visual computing technologies: EU position and future potential

Deadline: 09/09/2011. The aim of the study is to inform decisions on future coverage and approach towards the fields of simulation, visualization, visual computing within a future post 2013 EU Research & Innovation Programme. The study should analyse, assess the position of the EU research community, of EU industry in these areas. It should benchmark these activities against the main international competitors. It should also

analyse the research, market potential in various application areas and identify the potential key players that should be involved in the definition of future R&D priorities and in subsequent R&D activities in the area. The data gathered, lessons learnt through this study will be fed into the Common Strategic Framework and Work Programme preparation process.

Policy

EU budget 2014-2020 and cohesion policy

The EC presented its proposals for a Multi-annual Financial Framework 2014-2020 on 29 June 2011. The EC proposes to allocate €376 billion for the 2014-2020 period for spending under cohesion policy instruments. *Défendre le principe de solidarité, c'est aussi revenir aux principes fondateurs du projet européen* said José Manuel Durão Barroso on 29.6.2011.

[Remarks by President Barroso on the Commission's proposals for the 2014-2020 Multi-Annual Financial Framework](#)

The EC - kick-start innovation through research - the launch of EU's biggest ever call for research

On 19 July, the European Commissioner for Research Innovation and Science, Máire Geoghegan-Quinn, will announce the biggest ever call for proposals to fund European research and innovation, totalling around € 7 billion. The Commissioner plans to boost innovation through research with the announcement of the 1st calls for proposals since the adoption of the [Innovation Union flagship](#), will give details of the main fields of research & innovation to be covered. The main focus of these work programmes is the integration of research & innovation. Particular emphasis has been placed on SMEs.

In order to build on the success of the current FP7 for Research, the Commission proposed on 29 June a 46 % increase in research and innovation funding under the 2014-2020 Multi-annual Financial Framework, and intends to further streamline and simplifying research and innovation funding under the new [Horizon 2020](#) programme which will begin in 2014.

Key Enabling Technologies

A key expert group set up by the Commission set out guidelines on giving European industry a competitive edge in deploying the industrial technologies of the future (Key Enabling Technologies, KET)

The group recommends that the vital importance of KETs should be reflected in the structure/funding balance in the upcoming framework for research & innovation, in the priorities of the EU's future regional policy. Europe's industry "would suffer losses in competitiveness", if it fails to successfully exploit the 6 following important KETs (micro- & nanoelectronics, advanced materials, industrial biotechnology, photonics, nanotechnology, advanced manufacturing systems).

Events

Conference *Smart2Wheels*, Tackling EU's Urban Mobility Challenges: What can Cycling do for EU Cities?, 22 September, Brussels

On the occasion of Mobility Week, ETRA (The European Two-wheel Retailers' Association) and Forum EU, in association with the Netherlands Embassy to the EU, The European Greens and UEAPME, will host the "**Smart2Wheels**" event.

The day will feature an exhibition of innovative cycling products, bicycles, other two-wheelers on the Esplanade outside the EU Parliament followed by a half-day debate at the Netherlands Embassy. This debate will focus on the beneficial impact of cycling on EU cities and on their citizens' health. The purpose of the day will be to highlight and to discuss the economic and social effects of promoting 2Wheels as a sustainable mobility solution. The event programme features :

- The official inauguration of Smart2Wheels by a number of senior policy makers.
- The opportunity to try out innovative bikes, electric bikes, electric scooters, on show...
- Presentation of inspiring sustainable mobility projects and organisations.
- The "Conference Bike" Meeting that will feature senior policymakers and stakeholders.
- Short bike rides touring Parliament, Council and Commission
- A breakfast and lunch on the Esplanade of the European Parliament (to be confirmed)
- The Afternoon Debate at the Netherlands Embassy will focus on the social/economic effects of promoting 2Wheels as a sustainable mobility solution.
- The official opening of the Netherlands Cycling Embassy.

4th International Conference on Power Transmissions, 20-23 June 2012, Sinaia, Romania

The International Conference on Power Transmissions is a periodic scientific event organized every three years by Balkan Association of Power Transmissions (BAPT), with the support of other associations and organizations. The conference is held successively in different Balkan countries affiliated to BAPT. The conference gathers academics, researchers, students and industry experts in the area of mechanical and power transmissions:

- to disseminate interesting new research;
- to exchange experience and expertise through the presentation of original research and other mutual discussions;
- to present new technical solutions as part of an exhibition taking place alongside the conference

International Conference on Europe's Gas Diversification and Secure Supplies, 20 October 2011, Brussels

The international conference Bridging the Gas Gap on EU gas diversification organised by Forum EU & Crosscom Group Ltd will be held at The Hotel (former Hilton), Brussels. The aim of the conference is to analyse the process of diversifying gas supplies to EU by highlighting the various projects under the Southern Gas Corridor initiative. Discussions will examine how EU can ensure security of supply going forward, what the EU can expect from the various countries supplying the gas while also hearing from some of the key transit countries. The conference will gather high-level governmental officials from the EU institutions, EU member states, USA, Caspian and Middle East countries, gas industry players from EU and Central Asia, equipment manufacturers, EU financial institutions and project consultants.

Training Events / Jobs

Calendar of training courses in nanoscience and electronics

Plans d'expériences - Méthode Taguchi	08-09.07.2011	Neuchâtel (CH)
Tronics & MultiMEMS MEMS Processes: Ecole d'Ingenieurs et d'Architectes	12-15.07.2011	Fribourg, CH
Jyväskylä Summer School	08.08.2011	Finland
Advanced Analog IC Design	22.08.2011	Switzerland
Practical Aspects in Mixed-Signal ICs	22.08.2011	Switzerland
Micro-Nano for Large Distributed Systems	22-26.08.2011	Neuchâtel (CH)
Power Management	29.08.2011	Switzerland
Cryptographic Engineering	29.08.2011	Switzerland
Polymer Microfabrication	12.09.2011	Neuchâtel (CH)
Critères de choix des capteurs et des appareils de mesure	21.09.2011	Neuchâtel (CH)

Microfluidic Application Platforms	23.09.2011	Neuchâtel (CH)
Critères pour le choix d'un moteur électrique	27.09.2011	Neuchâtel (CH)
Réseaux de capteurs et transmission de données sans fil	12.10.2011	Neuchâtel (CH)

Distance Learning Courses

QL - Quality

labelled course

QL	Title	Location
QL	Advanced Applications & Design of Microsystems	Web based
QL	Design for Precision & Nanometrology	Web based
QL	Introduction to Electronics	Web based
QL	Micro Electronics & Micro Engineering	Web based
QL	Microsystems & Nanotechnology	Web based
QL	Online Course Introduction to Electronics	Web based
QL	Oxford University Introduction to Electronics Online Short Course	Web based
QL	Precision & Micro Engineering-An Overview	Web based
QL	Precision & Nano Metrology	Web based
	Advanced Electronic Design Automation	Web based
	Analogue and Mixed Signal Integrated Circuit Design	Web based
	Analogue Design using Analogue HDLs	Web based
	An Intuitive Approach to DSP	Web based

MA in Advanced European and International Studies, Nice/Berlin/Istanbul/Rome, October 2011 to July 2012

The Institut européen des hautes études internationales (IEHEI), an international teaching and research institute in Nice, invites graduate students to apply for its Master programme 2011/12. The courses MAEIS offers an overarching, encompassing vision of the political, social, economic, cultural problems of today's modern world. The courses are taught by renowned academics from various European countries, as well as experts from research institutions and practitioners.

Deadline for applications: 30 June 2011. The Master programme comprises 3 terms and is subdivided into 2 branches:

- The trilingual branch (teaching languages are English, French, and German) includes trimesters in Nice and Berlin, as well as a one week stay at our partner university in Rostock and a two week seminar at our partner university in Rome.
- The anglophone branch includes trimesters in Istanbul, Nice and Berlin.

Subject Areas: European Integration, International Relations, Economy and Globalisation, Federalism and Governance. Both branches organise a study trip to the European and international organisations in Geneva, Strasbourg and Brussels

A limited number of scholarship funds are awarded to particularly qualified candidates to cover parts of the costs of their studies and/or their accommodation.

Postdoctoral Research Positions in the CSE Department

Aalto University School of Science invites applications for Postdoctoral Research Position in the Department of Computer Science and Engineering. Department of Computer Science and Engineering at Aalto University covers widely research and education within the fields of computer science, software engineering and data communication. The department has 13 professors, in total roughly 150 researchers, teachers, full-time doctoral students, staff members. See <http://cse.aalto.fi/>.

The postdoctoral positions are open in the following areas:

- 1) Software Systems and Technology, including database systems
- 2) Mobile Computing and Security
- 3) Software Engineering

Jobs at EFSA, The European Food Safety Authority

More... <http://www.efsa.europa.eu/en.html>

Temporary agent, IT Enterprise Architect

Grade: AD 8, Deadline for applications: 4 July 2011, Location: Parma, Italy

More... http://www.efsa.europa.eu/EFSA/header/efsa_locale-1178620753812_Jobs.htm

Temporary agent, Head of Dietary & Chemical Monitoring Unit, Risk Assessment & Scientific Assistance Direct

Grade: AD 9, Deadline for applications: 15 July 2011, Location: Parma, Italy

More... http://www.efsa.europa.eu/EFSA/header/efsa_locale-1178620753812_Jobs.htm

Seconded National Experts, Deadline for applications: 3 November 2012, Location: Parma, Italy

More... http://www.efsa.europa.eu/EFSA/header/efsa_locale-1178620753812_Jobs.htm

Contract Agent (M/F), Unified Com. System Administrator, IT & Operations Unit - Resources & Support Directorate

Grade: FG IV, Deadline for applications: 25 July 2011, Location: Parma, Italy

More... <http://europa.eu/epso/apply/today/%20http://www.efsa.europa.eu/en/aboutefsa/jobs.htm>

Contract Agent (M/F), Database Architect (IT & Operations Unit - Resources and Support Directorate)

Grade: FG IV, Deadline for applications: 25 July 2011, Location: Parma, Italy

More... <http://www.efsa.europa.eu/en/aboutefsa/jobs.htm>

Contract Agent (M/F), Scientific Officer for the Applications Desk - APDESK Unit

Grade: FG IV, Deadline for applications: 1 August 2011, Location: Parma, Italy

More... <http://www.efsa.europa.eu/en/aboutefsa/jobs.htm>

Contract Agent (M/F), Web Communications Officer for the Applications Desk - APDESK Unit

Grade: FG IV, Deadline for applications: 1 August 2011, Location: Parma, Italy

More... <http://www.efsa.europa.eu/en/aboutefsa/jobs.htm>

Contract Agent (M/F), IT Business Analyst for the Applications Desk - APDESK Unit

Grade: FG IV, Deadline for applications: 1 August 2011, Location: Parma, Italy

More... <http://www.efsa.europa.eu/en/aboutefsa/jobs.htm>

Job at ENISA, the European Network and Information Security Agency

More... <http://www.enisa.europa.eu/recruitment/vacancies/traineeship-notice-1>

Temporary agent (M/F), Expert in Network and Information Security

Grade: AD 6, Deadline for applications: 17 July 2011, Location: Heraklion, Greece

More... <http://www.enisa.europa.eu/recruitment/vacancies/expert-in-network-and-information-security>

Jobs at EMA The European Medicines Agency

More... <http://www.ema.europa.eu>

Temporary agent (M/F), Internal Communications Officer, Executive Support Sector, Directorate Unit

Grade: AD 6, Deadline for applications: 7 July 2011, Location: London, UK

More... <http://www.ema.europa.eu/htms/general/admin/recruit/recruitnew.htm>

Temporary agent (M/F), Scientific Administrator, Regulatory, Procedure & Committee Support Sector for the Patient Health Protection Unit

Grade: AD 6, Deadline for applications: 7 July 2011, Location: London, UK

More... <http://www.ema.europa.eu/htms/general/admin/recruit/recruitnew.htm>

Temporary agent (M/F), Administrator, Database & Middle-tier Administration Section, ICT Infrastructure Sector, Information and Communications Technology Unit

Grade: AD 6, Deadline for applications: 7 July 2011, Location: London, UK

More... <http://www.ema.europa.eu/htms/general/admin/recruit/recruitnew.htm>

Job at FRA, the European Union Agency for Fundamental Rights

More... <http://fra.europa.eu>

Temporary Agent (M/F), ICT Operations Officer

Grade: AST 4, Deadline for applications: 22 July 2011 at 13:00 Vienna Local Time, Location: Vienna, Austria

More... http://fra.europa.eu/fraWebsite/about_fra/recruitment/recruitment_en.htm

Job at EMSA, the European Maritime Safety Agency

More... <http://www.emsa.europa.eu>

Temporary Agent (M/F), Senior project officer in the field of international relations

Grade: AD9, Deadline for applications: 22 July 2011, Location: Lisbon, Portugal
